

QUICK LINKS:

Biostatistics, Epidemiology and Research Design (BERD) Clinic

The BERD unit offers brief consultations to help researchers understand methodological aspects of their research and connects them to appropriate UTHSC resources. These free one-hour consultations are available to UTHSC researchers anywhere via Zoom, and optionally, in-person in Memphis. The clinic is led by a faculty member who will provide advice or referral to resources or collaborators at UTHSC.

After registering for a time slot, clinic attendees can receive personalized advice on:

Statistical Analysis

- Formulating a Statistical Analysis Plan
- Appropriate Selection of Statistical Tests
- Interpretation of Statistical Results
- Advice on Display of Data & Results
- Responding to Reviewers

Biomedical Informatics Planning

- Setting up your Dataset for Analysis
- Data Management Using REDCap/Unity
- Data Safety & HIPAA
- Project Management

Statistical Design

- Study Design
- Sample Size & Power Calculations
- Randomization Planning

Specialized Advice

- Molecular Bioinformatics
- Health Services Research
- Population Health

One day advance registration is required. You may submit a one page summary for the specialist to review before your appointment. Please ensure that the transportation/sharing of all data conforms with UT, HIPAA & IRB requirements. Visit tnctsi.uthsc.edu or email berdclinic@uthsc.edu for more information.
